

CREATION 2 CHRIST

Using Creation to bring people to Christ

Summer 2013 Report

Looking back over the three summer months, we thank God for His faithfulness, for the twenty-two children we saw make professions of Jesus as Saviour, and for the spiritual growth we saw in so many during the ten VBS's and one camp. About 350 children came to VBS and camp this summer to be taught the *King of My Castle* curriculum. We had more than 550 people involved, including teens and adults.

It was exciting to share the glory, victory, power, greatness, and majesty of the Lord Jesus Christ, Who is King over all kings and over all His creation; and to challenge each one to make Him their personal King. One day everyone will bow the knee to Him. Praise God for those who came to Him during VBS! We pray that all those that heard the message of *King of My Castle* will submit to Him for salvation and service before it is too late.

It was great to watch as many of our hearers realized for the first time that dinosaurs were called dragons, and yes, people did see and interact with dinosaurs. We did not live millions of years apart.

Dinosaurs were created by God; they were not a product of time and chance. It was exciting to praise God together for His creation as He has commanded.

It was a blessing to work with each church and see the people get involved by helping us set up and decorate the church, being willing to wear royal and knightly costumes, bravely acting out the dragon legends, taking pictures, helping with the children in registration, nuncheon, tutelage, and tournament time, and helping with tearing down and packing up! The encouragement and care we received were uplifting throughout the summer.

Praise our Creator King for showing that He is still on the throne and actively working to draw hearts to Himself!

For the Creator,
The Stan Myers Family
