Lori's Health

In March of 2015 Lori was admitted into the hospital with a heart complication. After about 7 days she was released and told that she had a perforated aorta. Lori was given a shot in her side that glued the aorta back together. We were very grateful to those who helped Lori through this. A few months later Lori went to see her endocrinologist and was told that her kidneys were failing at a rapid rate due to the medication she was given to close her aorta. In June of this year Lori was rushed to the hospital because she could not breathe. She had 50 pounds of water on her body and the next day they gave her a port and started dialysis. Lori is still in high spirits and hopeful, waiting on God to prevail.

Building Needs and accomplishments

We are very blessed that the Lord has provided a building for us to meet in. We have been several times to pass out tracks and are slowly seeing a growth in our numbers. We have also started meeting on Tuesday evenings for a mid-week bible study. We have talked to several people and they are pleased that there is a church in Oradea preaching the word of God and taking a stand for the cause of Christ. We still have a few things to do in the church building. We have not been able to put down flooring or a platform yet but no one seems to mind, and those things will come in time.

Our New Car

We have been using a car that belonged to missionary friends that left the field. They have settled in now and need us to finish paying for the car. We are still in need of funds to be able to pay them. Please be in prayer with us for this need.

Camp

We had a blast. A refreshing time with God and an awesome chance to play some baseball. What more could you ask for. Attendance for camp this year was low, but there was a decision to follow Christ in believer's baptism. The plans are being made for next year's camp already. We will be meeting at another location next year and can't wait to see what God has in store.
